Work Experience

Web Developer

2024 - 2025

Noonan Real Estate Agency

- Led the development team in planning and designing a custom Sales CRM tailored specifically for real estate operations.
- Collaborated with a remote team of developers and QA testers to define technical architecture and streamline development workflows.
- Worked closely with the graphics designer to align UI/UX designs with both user needs and brand standards.
- Contributed to project management by overseeing sprint planning, maintaining technical documentation, and coordinating tasks using Agile methodologies.

Freelance Developer

2023 - 2024

Capstone Projects – Gamefarm | Procurement Management Systems

Developed two full-stack PHP/MySQL web applications: a Gamefarm Management System (inventory, breeding records, predictive analysis) and a Procurement System (purchase requests, workflows, vendor and budget tracking). Designed both front-end and back-end with secure access control, modular code, and delivered functional prototypes to clients.
